

I purchased XM satellite radio in February, and I am enjoying greatly. It provides many different kinds of music, comedy, news, and entertainment not available elsewhere. The traffic and weather channels are a part of this service.

I pay a monthly charge for the right to listen to XM radio. I do not want the National Association of Broadcasters, or anyone else, for that matter, deciding what I can or cannot listen to. I will make that decision myself.

I urge the FCC to reject the NAB's petition 04-160, and to support XM Radio's ability to continue the kind of programming that it provides. I do not want the government or a coalition of large broadcasters making this decision for XM radio or for me.
